| Too much models... I felt a huge passion for the internacional economy and internacional events, but this subject results disappointing. I understant that we may keep in the theoretical aspects, but It would be nice to go throughout real examples. |
| És una assignatura completament nova que mai s'ha fet res fins aleshores. D'aquesta manera no es pot pretendre que l'alumne entengui i processi tot un model complexe en una setmana (o fins i tot en una classe). A classe no es fa cap derivació, simplement es passen les diapositives i s'expliquen molt per sobre. És molt difícil seguir la classe i entendre el que es fa.<br><br>Els exercicis del seminari són bastant complicats en relació amb el vist a classe (i més tenint en compte de la manera que es dona la metèria). Tanmateix, van bé pre practicar. Es podrien fer més problem sets.<br><br>Es podria fer un parcial al mig del trimestre.<br><br>La presentació compta un gran percentatge de la nota final (30%), però són només 10–15 minuts de presentació. És molt difícil fer un bon treball i treure bona nota si el grup que et toca (perquè son aleatories) no treballa bé. Aquest perjudica a gent que sí que treballa i que vol treure bona nota a l'avaluació contínua. |
| A les classes teóriques es necesitaria fer exemples més práctics o visuals per ajudar amb la comprensió del temari |
| Considero que esta asignatura se debería partir en dos cursos. Es muy densa, demasiados modelos. Los seminarios han estado muy bien, he aprendido todo lo que no aprendí en clase. |
| No tenim pla docent, i les sessions de classe terribles! |
| El professor disposa de 1.30h de classe per fer la explicació. Es dedica a estar 30 minuts a fer una presentació del tema i la hora restant fa la classe corrents i sense deixar entendre els conceptes. En quant als drets dels estudiants, no respecta ni el dret de vaga, ni les indicacions donades per la pròpia universitat. No pensa en els afectats de les seves decisions i no escolta a possibles alternatives. Molt decepcionat amb aquest professor i les seves actituds. |
